Covid 19 situation and Ooredoo priorities

“As we work together to overcome the challenges of the COVID-19 pandemic, our key priorities are clear:
• the health and safety of our staff and customers
• the continued provision of uninterrupted and high quality services to our consumer and business customers.

“We have a strong balance sheet, a well-diversified portfolio geographically and a resilient customer mix across prepaid, postpaid and enterprise. Our customers are now relying on Ooredoo’s service more than ever before.

“The investments we have made and continue to make in our digital transformation have ensured our business continuity and enabled us to provide essential services for our customers during these uncertain times.”

Initial assessment of impact on our business:

Telecom is a resilient and defensive sector

- Reduced roaming revenues due to travel restrictions
- Decreased device sales (low margin business) due to store closures
- Potential supply chain disruption, delaying CAPEX deployment
- More need to communicate in crisis situation
- Data consumption up during lockdown (entertainment, education, video conferencing)
- Increased e-Shop and digital service usage
- Potential increase in demand for cloud and data centre services

Long term opportunities:

- Digital Transformation & increased reliance on online services
- Necessary growth of 5G and acceleration of IoT services

**Key Highlights**

Solid financial performance in challenging conditions

---

**Revenue** growth of 1% year-on-year to QAR 7.3 billion supported by robust growth in Indonesia, Tunisia, Myanmar and other markets, which was partially offset by a COVID-19 impact, a reduction in handset sales and macroeconomic weakness in some of our other markets.

**EBITDA** declined by 5% year-on-year to QAR 3.0 billion, impacted by measures to contain the spread of COVID-19 in many territories as well as challenging market conditions in Algeria, Qatar, Kuwait and Oman.

**Group Net Profit attributable to Ooredoo shareholders** declined by 8% to QAR 387 million in Q1 2020, compared to the same period last year, due to the reduction in EBITDA which was partially offset by a more favorable Foreign Exchange environment compared to the same period last year.

**Data revenues** accounts for more than 50% of total Revenue driven by our data leadership and digital transformation initiatives across the countries we operate in.

Ooredoo Group has healthy cash reserve and liquidity levels to be able to absorb the impact of COVID-19 for the year 2020. As the COVID-19 lockdowns continues, it is expected to result in economic weakness in most of our markets with a corresponding impact on the performance of our operations.
• Revenue growth of 1% yoy supported by robust growth mainly in Indonesia, Tunisia, Myanmar partially offset by a COVID-19 impact, a reduction in handset sales and macroeconomic weakness in some of our other markets
• EBITDA negatively impacted mainly due to challenging market conditions in Kuwait, Oman, Qatar and Algeria
Net Profit Attribution to Ooredoo shareholders (QARm)

• Net profit down by 8%. Ooredoo Group has healthy cash reserves and liquidity levels that can absorb the impact of COVID-19 for the year 2020. Economic weakness, as a result from the COVID-19 lockdowns, is likely to have an impact on the performance of our operations.

Free Cash Flow and Capital Expenditure

CAPEX (QARm) & CAPEX/ Revenue (%)

- Capex lower than in 2019, advantage of scale of Ooredoo Group and global sourcing strategy (RAN savings)
- Escalated 2019 Capex in Indonesia, 2020 Capex is back on normal track
- FCF positively impacted as Capex reduction was higher than the EBITDA decrease

Free Cash Flow (QARm)

Note: Free Cash Flow = (Net Profit + Depreciation + Amortization + ROU IFRS16 amortization + interest - Capex- lease payments under IFRS-16). Capex includes investment in tangible and intangible assets (excluding spectrum, license and leased assets capitalized under IFRS-16)

Ooredoo Kuwait revenues in Q1 2020 were QAR 656 million compared to QAR 673 million in Q1 2019 in a competitive environment.

COVID-19 lockdown added pressure on the economy and correspondingly impacted the performance of Ooredoo Kuwait.

Continued to focus on its digital strategy and successfully converted more of its existing users to 5G plans to take advantage of the superior connectivity that the technology offers.

Customer base stable stood at 2.4 million.

COVID-19 CSR: Free 5 GB internet daily & unlimited local calls and free internet to governmental + ministries managing the pandemic.

Ooredoo Kuwait offered all workers in the ministries and governmental organizations 5GB of free data a day and unlimited local calls, in support of their efforts to contain the spread of COVID-19.

Following the guidance from the Capital Market Authority in Kuwait, Ooredoo Kuwait (NMTC) will be publishing Q1 2020 financial accounts only in July 2020 in line with all listed Kuwaiti companies. Therefore Ooredoo Q.P.S.C. disclosure is limited this quarter as it contains less details than usual for the operation in Kuwait.

Note: Average rate over the period (KWD)
