#### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 'Interim Financial Reporting'.

- (ii) Contributions by National Mobile Telecommunications Company K.S.C.P. to Kuwait Foundation for the Advancement of Sciences ("KFAS"), National Labour Support Tax ("NLST") and Zakat represent levies/taxes imposed at the flat percentage of net profits attributable less permitted deductions under the prevalent respective fiscal regulations of the State of Kuwait which is accounted for under IAS 12 'Income Taxes'. As at 1 January 2025, following the introduction of Pillar II tax rules by the Kuwaiti tax Authorities, both the Zakat and NLST levies were abolished.
- (iii) In December 2021, the Organisation for Economic Co-operation and Development (OECD) issued 15% minimum taxation applicable to multinational groups (MNEs), in accordance with the Base Erosion and Profit Shifting (BEPS) Pillar II Anti-Global Erosion (GloBE) framework. Various governments around the world have issued, or are in the process of issuing, legislation related to this framework. On 23 December 2024, the Shura Council in Qatar approved amendments to select provisions to the Income Tax Law promulgated under Law No. 24 of 2018. On 27 March 2025, the State of Qatar published amendments to the Income Tax Law No. (24) of 2018 in the Official Gazette. These amendments introduce an Income Inclusion Rule (IIR) and a Domestic Minimum Top-up Tax (DMTT). These Pillar II rules are effective for accounting periods beginning on 1 January 2025.

In Kuwait, the legislator introduced the Law No. 157 of 2024, effective as of 1 January 2025, which aims to ensure that MNEs pay tax at an effective tax rate of 15% on their Kuwait profits, introduced a DMTT that is aligned with the Pillar II Model Rules. On 29 June 2025, Kuwait's Ministry of Finance issued the much-anticipated Executive Regulations for Law No. 157 of 2024, which governs the taxation of MNEs operating in the country.

#### 26. SEGMENT INFORMATION

Information regarding the Group's reportable segments is set out below in accordance with IFRS 8 "Operating Segments". IFRS 8 requires reportable segments to be identified on the basis of internal reports that are regularly reviewed by the Group's chief operating decision maker ("CODM"), which is the "Group Executive Management" (GEM), and used to allocate resources to the segments and to assess their performance. Further, major decisions taken by the GEM are finally approved by the Board of Directors in line with the decision rights manual (DRM).

The Group is mainly engaged in a single line of business, being the supply of telecommunications services and related products. The majority of the Group's revenues, profits and assets relate to its operations in the MENA. Outside of Qatar, the Group operates through its subsidiaries and associates and major operations that are reported to the Group's CODM are considered by the Group to be reportable segments. Revenue is attributed to reportable segments based on the location of the Group companies. Inter-segment sales are charged at arms' length prices.

For management reporting purposes, the Group is organised into business units based on their geographical area covered, and has six reportable segments as follows:

- 1. Ooredoo Qatar is a provider of domestic and international telecommunication services within the State of Qatar;
- 2. Asiacell is a provider of mobile telecommunication services in Iraq;
- 3. Ooredoo Hutchison Asia ("OHA") (considered a major joint venture) is a provider of telecommunication services such as cellular services, fixed telecommunications, multimedia, data communication and internet services in Indonesia;
- 4. Ooredoo Oman is a provider of mobile and fixed telecommunication services in Oman;
- 5. Ooredoo Algeria is a provider of mobile telecommunication services in Algeria; and
- 6. Ooredoo Kuwait is a provider of mobile and ISP services in Kuwait.

Management monitors the operating results of its operating subsidiaries separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss of these reportable segments. Transfer pricing between reportable segments are on an arm's length basis in a manner similar to transactions with third parties.

#### 27. FAIR VALUES OF FINANCIAL INSTRUMENTS

#### Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Quoted (unadjusted) prices in active markets for identical assets or liabilities that the Group Level 1:

can access at the measurement date:

Inputs other than quoted prices included within level 1 that are observable for the assets or Level 2:

liability, either directly or indirectly; and

Unobservable inputs for the asset or liability. Level 3:

#### 27. FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

There were no transfers among Levels 1, 2, and 3 for the six-month period ended 30 June 2025 and for the year ended 31 December 2024.

At 30 June 2025, the Group has notes with a fair value of QR. 13,043,731 thousand (2024: QR. 12,827,325 thousand). The notes are listed on the Irish bond market and the fair value of these instruments is determined by reference to quoted prices in this market. The market for these bonds is not considered to be liquid and consequently the fair value measurement is categorised within level 2 of the fair value hierarchy. In addition, the Group has bank loans with a fair value of QR. 1,518,916 thousand (2024: QR. 1,438,494 thousand) within level 3 of the fair value hierarchy.

For fair value measurements categorised within Level 2 and 3 of the fair value hierarchy, the fair values are determined using appropriate valuation techniques, which include the use of mathematical models, such as discounted cash flow models and option pricing models, comparison to similar instruments for which market observables prices exist and other valuation techniques. Valuation techniques incorporate assumptions regarding discount rates, estimates of future cash flows and other factors.

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements for the individually significant investment:
