Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

2. BASIS OF PREPARATION (CONTINUED)
a) Statement of compliance (continued)

The condensed consolidated interim financial information does not include all information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2025. In addition, results for the nine-month period ended 30 September 2026 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2026.

b) Use of estimates, judgements and risk management

The preparation of the condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affects the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The significant judgments made by management in applying the Group's accounting policies, the key sources of estimation uncertainty and financial risk management objectives and policies were the same as those that applied to the Group's annual consolidated financial statements for the year ended 31 December 2025.

c) New IFRS Accounting Standards and amendments adopted by the Group

The following amended IFRS Accounting Standards are applied for the annual reporting period beginning on 1 January 2026 which had no significant impact on the condensed consolidated interim financial information of the Group.

Effective date	New accounting standards or amendments
1 January 2026	• Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7 • Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7 • Annual improvements to IFRS Accounting Standards – Volume 11

d) New IFRS Accounting Standards and amendments not yet effective, but are available for early adoption

A number of new accounting standards and amendments to accounting standards are effective for annual reporting periods beginning after 1 January 2026 and earlier application is permitted. However, the Group has not early adopted any of the forthcoming new or amended accounting standards in preparing the condensed consolidated interim financial information. The management of the Group is in the process of assessing the impact of these new standards, interpretation and amendments which will be adopted in the Group's financial statement as and when they are applicable.

IFRS 18 Presentation and Disclosure in condensed consolidated interim financial information

IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The new standard introduces the following key new requirements.

- Entities are required to classify all income and expenses into five categories in the statement of comprehensive income, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
- Management-defined performance measures ("MPMs") are disclosed in a single note in the financial statements.
- Enhanced guidance is provided on how to group information in the financial statements.
- In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method.

- (i) In accordance with its operating licenses for Public Telecommunications Networks and Services granted in Qatar by Communications Regulatory Authority (CRA), the Company is liable to pay to the CRA an annual industry fee which is calculated at 12.5% (30 September 2025: 12.5%) of net profit from regulated activities undertaken in Qatar pursuant to the licenses which is accounted for under IAS 12 'Income Taxes'.
- (ii) Contributions by National Mobile Telecommunications Company K.S.C.P. (Ooredoo Kuwait) to Kuwait Foundation for the Advancement of Sciences ("KFAS"), National Labour Support Tax ("NLST") and Zakat represent levies/taxes imposed at the flat percentage of net profits attributable less permitted deductions under the prevalent respective fiscal regulations of the State of Kuwait which is accounted for under IAS 12 'Income Taxes'. With effect from 2025, Zakat and NLST became no longer applicable following the implementation of the Pillar Two tax framework in Kuwait. Accordingly, the negative amount recognised in 2026 represents the reversal of the provisions recorded in the prior year.

21. INCOME TAX AND OTHER TAX RELATED FEES (CONTINUED)

- (iii) In December 2021, the Organisation for Economic Co-operation and Development (OECD) issued model rules for a new global minimum 15% tax framework (Pillar II tax), and various governments around the world have issued, or are in the process of issuing, legislation related to this framework.

Qatar has enacted the OECD Pillar II framework into domestic law through Law No. 22 of 2024, which amends the Income Tax Law No. 24 of 2018. The law was published in the Official Gazette on 27 March 2025 and applies to fiscal periods beginning on or after 1 January 2025. Under this legislation, Qatar has implemented two Pillar II mechanisms: (i) the Income Inclusion Rule (IIR), which requires a Qatari Ultimate Parent Entity to pay a top up tax in respect of low taxed foreign constituent entities; and (ii) a Domestic Minimum Top Up Tax (DMTT), which ensures that profits generated in Qatar are subject to a minimum effective tax rate of 15%, thereby preventing the reallocation of taxing rights to other jurisdictions.

Similarly, in Kuwait, Law No. 157 of 2024 introduced a Domestic Minimum Top Up Tax in line with the Pillar II Model Rules. The law applies to multinational enterprise groups with consolidated revenues of at least EUR 750 million and is designed to ensure that profits attributable to Kuwait are taxed at a minimum effective tax rate of 15%. To enhance certainty and consistency with the OECD framework, Article 116 of the Executive Regulations requires the law to be interpreted and applied in accordance with the Pillar II Model Rules and the related Commentary. The introduction of this regime replaces the existing National Labor Support Tax (NLST) and Zakat tax regimes for multinational groups within the scope of the law.

Under Pillar II legislation, the Group is required to pay a top up tax equal to the difference between the effective tax rate applicable in each jurisdiction and the minimum rate of 15%. After considering the specific adjustments prescribed by the Pillar II rules, the Group recognised a Pillar II tax expense of QR 170,072 thousand for the reporting period (30 September 2025: QR 163,322 thousand), comprising QR 134,070 thousand in Qatar (30 September 2025: QR 142,291 thousand) and QR 36,002 thousand in Kuwait (30 September 2025: QR 21,031 thousand). This amount is included within income tax and other tax related fee in the condensed consolidated interim statement of profit or loss.

On 23 May 2023, the International Accounting Standards Board (IASB) issued amendments to IAS 12 'Income taxes' introducing a mandatory temporary exception to the requirements of IAS 12 under which an entity does not recognise or disclose information about deferred tax assets and liabilities related to the proposed OECD BEPS Pillar II rules. The Group has applied this mandatory exception to recognising and disclosing information about deferred tax assets and liabilities arising from Pillar II income taxes.

22. COMMITMENTS, CONTINGENT LIABILITIES AND LITIGATIONS (CONTINUED)

Litigations

In December 2018, Algeria's public prosecution along with the Algerian Ministry of Finance initiated investigation against Ooredoo Algeria for potential violation of Central Bank's regulations in relation to money transfers from its export bank account (roaming repatriation of funds) and initiated a claim of QR 308 million in fines and compensation from Ooredoo Algeria.

As at 31 December 2025, Ooredoo Algeria had booked QR 29 million provisions related to the export bank account violations (14 cases) and had appealed the remaining decisions related to the roaming repatriation cases with the Supreme Court. As a result, Ooredoo Algeria had not provided for the remaining exposure of QR 279 million as it was expected to be favourable, as supported by the legal opinion.

During the current period, following the outcome of the final hearing before the Supreme Court in June 2026 which ruled against Ooredoo Algeria, management reassessed the matter and concluded that settlement of the obligation had become probable. Accordingly, the Group recognized a full provision of QR 279 million in the condensed consolidated interim statement of profit or loss for the nine-month period ended 30 September 2026. The formal written judgment of the Supreme Court was received on 21 July 2026, confirming the decision announced during the June 2026 hearing.

Other than the above, all open litigation positions reported in the Group's annual consolidated financial statements as at 31 December 2025 have not materially changed as at 30 September 2026.

25. SEGMENT INFORMATION

Information regarding the Group's reportable segments is set out below in accordance with IFRS 8 "Operating Segments". IFRS 8 requires reportable segments to be identified on the basis of internal reports that are regularly reviewed by the Group's Chief Operating Decision Maker ("CODM"), which is the "Group Executive Management" (GEM), and used to allocate resources to the segments and to assess their performance. Further, major decisions taken by the GEM are finally approved by the Board of Directors in line with the decision rights manual (DRM).

The Group is mainly engaged in a single line of business, being the provision of telecommunications services and related products. The majority of the Group's revenues, profits and assets relate to its operations in the MENA. Outside of Qatar, the Group operates through its subsidiaries and associates and major operations that are reported to the Group's CODM are considered by the Group to be reportable segments. Revenue is attributed to reportable segments based on the location of the Group companies. Inter-segment sales are charged at arms' length prices.

For management reporting purposes, the Group is organised into business units based on their geographical area covered, and has six reportable segments as follows:

- Ooredoo Qatar is a provider of domestic and international telecommunication services within the State of Qatar;
- Asiacell is a provider of mobile telecommunication services in Iraq;
- Ooredoo Hutchison Asia ("OHA") (considered a major joint venture) is a provider of telecommunication services such as cellular services, fixed telecommunications, multimedia, data communication and internet services in Indonesia;
- Ooredoo Oman is a provider of mobile and fixed telecommunication services in Oman;
- Ooredoo Algeria is a provider of mobile telecommunication services in Algeria; and
- Ooredoo Kuwait is a provider of mobile and ISP services in Kuwait.

Management monitors the performance and results of its operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss of these reportable segments. Transfer pricing between reportable segments are on an arm's length basis in a manner similar to transactions with third parties.

26. FAIR VALUES OF FINANCIAL INSTRUMENTS
Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities that the Group can access at the measurement date;
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the assets or liability, either directly or indirectly; and
- Level 3: Unobservable inputs for the asset or liability.

The following table provides the fair value measurement hierarchy of the Group's financial asset and liabilities at 30 September 2026 and 31 December 2025:

29. GEOPOLITICAL DEVELOPMENTS IN THE REGION

Recent regional conflicts have increased uncertainty across parts of the Middle East. For the nine-month period ended 30 September 2026, management assessed the potential impact on the Group's operations, financial position, cash flows, and key estimates and judgments.

This assessment considered factors including network resilience, revenue stability, supply of network equipment, international connectivity, and the regulatory environment. Management has concluded that the going concern assumption remains appropriate, and the Group expects to meet all of its obligations as they fall due.

Given the evolving nature of the situation, uncertainties remain, and the extent of any future financial impact will depend on developments in the region. Management continues to monitor the situation closely.

30. COMPARATIVE INFORMATION

During the current period ended 30 September 2026, the Group reassessed the presentation of balances previously included within "bank balances and cash" in the consolidated statement of financial position as at 31 December 2025. Further, the Group has reclassified deferred income to contract liabilities to align its financial statement presentation with the terminology and requirements of IFRS 15.

The above reclassification represents a change in presentation only and does not impact the Group's previously reported profits, total equity, or cash flows for the year 2025.

Comparative information has been reclassified to conform with the current year presentation. The impact of the reclassification on the statement of financial position as at 31 December 2025 is as follows:

	As previously reported	Reclassification	As reclassified
	(QR '000)	(QR '000)	(QR '000)
Bank balances and cash	15,715,427	(15,715,427)	-
